RULING ON ENTITLEMENT¹

On October 2, 2023, Rose Uribe filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered from Guillain-Barré syndrome (“GBS”), a Table injury, as a result of an influenza (“flu”) vaccine received on October 12, 2021. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On July 5, 2024, Respondent filed his Rule 4(c) report in which he **concedes** that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, Respondent agrees that Petitioner suffered GBS following a flu vaccine within the Table time period, and there is not a preponderance of the medical evidence

that Petitioner's GBS was due to a factor unrelated to the vaccination. *Id.* at 4 (citing 42 C.F.R. §§ 100.3(a)(XIV)(D), (c)(15); Section 13(a)(1). The claim also meets the statutory severity requirement because Petitioner experienced sequelae of her GBS for more than six months. *Id.* (citing Section 11(c)(1)(D)(i)).

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
